Additional Funds Recovered in Alleged Embezzlement Case

The City continues to work diligently with the Orange County District Attorney's Office to recover funds that were allegedly embezzled from January 2014 to April 2016 by Michael M. Nguyen, a former City employee.

It is anticipated the lion's share of the \$4.9 million that is at issue will be returned to the City. According to information received through the District Attorney's Office approximately \$2.7 million has been seized for recovery (previously \$1.5 million was seized for recovery). An additional \$1 million is also available to offset the losses from the City's crime insurance policy.

About \$1.2 million is expected to remain outstanding after the funds that have been seized by the District Attorney for recovery are returned to the City and the insurance policy is processed. The City will continue to work with the District Attorney's Office and evaluate any and all available actions to recover the balance of funds.

Michael M. Nguyen was arrested in April for his alleged actions and the pretrial hearing will be held June 17 at the North Justice Center in Fullerton.

A website page has been established for residents to obtain the latest information regarding this item. Updated information will be posted at www.placentia.org/dainvestigation.

Technical Remote Rescue

Yorba Linda – June 7 - At 10:37 p.m. OCFA received a call of a technical remote rescue from Blue Gum, in Yorba Linda, stating a male patient was intoxicated and unable to walk out of Chino Hills State Park. Upon arrival, firefighters found a total of three subjects severely intoxicated, one of which had suffered a 50' fall into a ravine. The other two were stuck in the same ravine after attempting to rescue him. Duke 1 assisted in locating the patient while units were making ground access. Once the group was located and the access assessed, Helicopter 1 inserted a rescuer as ground resources set up a rope system to make access. Due to the technical nature of the rope system needing to be established, technical rescue Truck 34 and Heavy Rescue 6 assisted the initial engine company on scene. The primary patient was determined to be a trauma which required a stokes basket hoist evolution to remove him. The patient was "short hauled" to a nearby location for continued paramedic evaluation, treatment, and transport to Placentia Linda Hospital. Helicopter 1 needed to be refueled after the first short haul evolution. Ground based resources continued with their rope system rescue and evacuated the other two individuals who were released to OCSD. OCFA was assisted by Anaheim Fire Department and OCSD. All units were completed at 01:12 a.m.
