Street Cut & Excavation Moratorium

Repaving Requirements

Any cuts or excavations into roadways with recently paved or slurry seal finish surfaces is prohibited. Excavations may be made in the event of a legitimate and verifiable emergency. The moratorium period of repaved roadways is five (5) years from the date the Notice of Completion was approved by the City Council. The moratorium period for slurry or other types of sealed roadways is three (3) years.

The restoration of an arterial roadway surface disturbed by utility work within the pavement moratorium period shall require the entire width of the travel lane, for the entire length of the trench or cut, for a distance of at least 50 feet beyond each direction of the trench or cut.
